

MONTEREY REGIONAL WASTE MANAGEMENT DISTRICT

CUSTOMER NOTICE

UPDATE: Materials Recovery Facility Construction Project May - October 2017

Access to the Materials Recovery Facility (MRF) will be limited during construction and installation of new equipment May 1 - October 31, 2017.

Customers will be redirected to other areas on site for recycling and disposal. To maximize recycling, designated areas will be available for the following pre-separated materials:

- **Asphalt**
- **Drywall**
- **Wood (unpainted, untreated)**
- **Concrete**
- **Metal**
- **Yard Trimmings**

For mixed C&D loads that require a guarantee of 65% recycling, the MRWMD will transfer these loads to a San Jose processor for the fee of \$90 per ton. An extra Leadership in Energy and Environmental Design (LEED) point will be given to projects using this facility.

For guidelines on proper material separation and a complete list of fees, please refer to the MRWMD Disposal Fees brochure available at the Scale House and at www.mrwmd.org. For more information call 831-264-6917.

Building a Better Facility

Over the last 20 years, the MRF has saved more than 1.6 million tons from landfill disposal. This improvement project will increase recycling, ensure regulatory compliance for member agencies, and provide construction industry compliance with the 65% CalGreen recycling requirement.

Thank you for your patience during construction.
