

Landscape Product Information and Pricing

Wood Chips

Made from 100% recycled untreated, unpainted construction lumber. A low cost solution for use as a mulch, ground cover around trees, for weed abatement, decorative pathways, etc. Magnets remove most nails and screws (not recommended for children's playgrounds or animal bedding). Average chip size 1-2 inches.

1 ton of wood chips = approx. 5 cubic yards

Natural Color: **\$50 per ton**

Terra Cotta Color: **\$150 per ton**

Gabilan Compost

(OMRI Listed for organic* use.)

Our compost is reviewed annually by the Organic Materials Review Institute (OMRI) for organic use. Produced from yard trimmings and agricultural by-products including mushroom compost and grape pomace, it is an excellent soil amendment for use when planting trees, shrubs and plants, and for use as mulch and top dressing. Using compost returns nutrients to the soil, improves water retention and soil fertility.

1 ton of compost = approx. 1.4 cubic yards

\$50 per ton

*Organic is a labeling term that indicates that a product has been produced through approved methods that conserve resources, promote ecological balance, and support biodiversity. Synthetic fertilizers, sewage sludge, irradiation, and genetic engineering may not be used. View guidelines at www.OMRI.org.

Top Soil

Made from a blend of sandy soil (40%), humus (30%) and 30% organic material. An excellent planting mix for lawns and gardens.

1 ton of top soil = approx. 1.4 cubic yards

\$50 per ton

Potting Soil

Made from a blend of sandy soil (20%), humus (65%), and other organic material. For use in potting new plants or repotting plants that need larger containers. Use for vegetables, herbs and other outside container gardens (only available by the bag at the Last Chance Mercantile, you bag-it).

\$4 per bag

LANDSCAPE PRODUCTS		Price Per Ton	Min. Charge	Price per Bag
Wood Chips Chip size - 1" - 2"	Natural	\$50	\$20	\$4
	Terra Cotta	\$150	\$20	\$6
Gabilan Compost (OMRI Listed for organic* use)		\$50	\$20	\$4
Potting Soil		N/A	N/A	\$4
Top Soil Mix of sandy soil (40%), humus (30%) and 30% organic material.		\$50	\$20	\$4
Rock & Sand Products	Bagged Products** Bulk Products***	Available at the LCM (0.5 cu.ft. bags). Contact Don Chapin Co. (831) 776-6119 (Available M-F only)		\$5

Calculating how much you will need.

The type of project and the size of your area will determine the amount of material you will need. MRWMD sells products by weight vs. cubic yard. Use the following conversion table to help calculate approximately how much you will need or use the calculator found on MRWMD's Green Product page at www.mrwmd.org/green-products.

For Compost Application Recommendations (Cubic Yards Needed for Depth of Compost)

Square Footage	Compost Depth	Yards Needed	Tons
1000	2"	6	4.2
500	2"	3	2.1
250	2"	1.5	1.05

Product Conversion Tons to Cubic Yards

	1 Ton = Cubic Yards	1 Cubic Yard = # of Pounds
Compost	1.4	1,400
Topsoil	1.3-1.5	1,500
Woodchips	5	400

Purchase by the Ton or Bag

Compost and landscape products are sold by the ton at the District scales and by the bag at the Last Chance Mercantile.

Scale Hours:

Monday-Friday, 7 a.m. – 4 p.m., Saturday, 8 – 4 p.m.

Last Chance Mercantile Hours:

Tuesday-Saturday, 9 a.m. – 4 p.m.

Product Use Resources

For water conservation landscape strategies using these products see "Sheet Mulching Guide" at www.mrwmd.org/green-products.

MRWMD offers free green gardening workshops. Check schedules at www.mrwmd.org.
