

# SPECIAL WASTE SCREENING & ACCEPTANCE PROGRAM

## NON-FRIABLE ASBESTOS DISPOSAL

### Non-Friable Asbestos Submittal Package Checklist

Submittals must include the following:

- Completed Waste Manifest Profile form (*attached*)
- A letter from a licensed asbestos professional certifying that the material is non-friable and was removed in such a manner that it will arrive on site in a non-friable state
- A laboratory test result indicating the level of asbestos in the material

### Special Waste Review Procedures:

- 1) Complete submittal package.
- 2) Submit submittal package to ReGen Monterey at [specialwaste@regenmonterey.org](mailto:specialwaste@regenmonterey.org)
- 3) Initial technician review. *Technician will inform customer if additional information or analytical test results are required for review.*
- 4) Final technician review. *Technician will respond within 5 working days, if material can be accepted at ReGen Monterey*
  - a. If material **meets** ReGen Monterey's acceptance criteria
    - i. An acceptance letter with job reference number is issued for use upon arrival at the scales.
  - b. If material does **not meet** ReGen Monterey's acceptance criteria
    - i. Please consider other disposal sites including:
      - Johnson Canyon Landfill – Class III Landfill – (831) 675-2165
      - Altamont Landfill – Class II Landfill – (925) 455-7300
      - Kettleman Hills Facility – Class I Landfill – (800) 963-4776

### Fees:

Disposal of approved Non-Friable Asbestos will be charged the current Problem Waste rate.

For current Disposal rates, please see the [Disposal Fee](#) schedule.

### Delivery Notes:

- Non-friable waste must be double wrapped and sealed in plastic of 6-millimeter (6-mil) thickness, or completely covered in the truck bed by a tightly secured tarp from which the fibers cannot escape.
- Due to the nature of the waste, loads must be scheduled at least 72 hours prior to arrival.
- ReGen Monterey does not accept friable Asbestos containing materials. Friable asbestos is contained in material that can be reduced to a powder or dust under hand pressure. These materials are regulated as a California Hazardous Waste and are ineligible for acceptance at ReGen Monterey's landfill. Non-friable asbestos containing wastes and wastes containing less than 10,000 ppm (1%) friable asbestos are considered non-hazardous wastes.
- Non-Friable Asbestos deliveries that arrive at ReGen Monterey without an acceptance letter cannot be accepted and will be turned around

*ReGen Monterey implements the Waste Screening and Acceptance Program to assist in preventing disposal of hazardous waste containing materials at ReGen Monterey's Class III non-hazardous, solid waste landfill. **All special wastes must be pre-approved by ReGen Monterey prior to acceptance and delivery of the material to the facility.** It is the responsibility of the generator to certify that the materials brought for disposal at ReGen Monterey are non-hazardous per CCR Title 22 Section 66260.*
