<b>Position:</b>	<b>Maintenance Shop Supervisor</b>	<b>FLSA Status:</b>	<b>Non-Exempt</b>
<b>Department:</b>	<b>Maintenance Shop</b>	<b>FTE:</b>	<b>Full Time</b>
<b>Reports to:</b>	<b>Equipment Maintenance Manager</b>	<b>Revised:</b>	<b>February 2025</b>

## DEFINITION

Under general supervision, the Maintenance Shop Supervisor plans, organizes, schedules, and performance maintenance and repair of ReGen Monterey's vehicles and heavy equipment; provides technical training to staff; develops and maintains records of operational activities required by regulations and/or cost analysis; performs a variety of complex inspections, diagnosis, maintenance, and repair work; and performs other job-related duties as required.

## DISTINGUISHING CHARACTERISTICS

This is the supervisory level in the Heavy Equipment Technician classification series. The supervisor spends most of their time performing diagnosis of mechanical and electrical problems and certain administrative duties such as maintaining records, parts and supply inventory, preparing cost estimates for major repairs, completing performance reviews and directing the daily workflow. The supervisor provides direct supervision to department staff and performs technically complex repair work, as needed.

## ESSENTIAL FUNCTIONS

*The following duties are typical of this classification and are intended only to describe the various types of work that may be performed, the level of technical complexity of the assignment(s) and are not intended to be an all-inclusive list of duties. The omission of a specific duty statement does not exclude it from the position if the work is consistent with the concept of the classification or is similar or closely related to another duty statement to address business needs and changing business practices.*

- Plan, direct, train, supervise, assign, and inspect the work of staff engaged in the maintenance and repair of equipment and vehicles.
- Work independently and apply sound judgment and critical thinking skills in a variety of circumstances to make effective decisions.
- Implement shop safety practices, provide training, establish preventive maintenance program.
- Prepare and maintain a variety of records, reports, and correspondence using computer system/software.
- Implement and carry out preventive maintenance programs.
- Plans and evaluates performance of assigned staff; regularly monitors performance and provides coaching for performance improvement and development; collaborates with department manager to take disciplinary action to address performance deficiencies, in accordance with ReGen Monterey's personnel rules, policies and labor contract provisions where applicable.
- Inspect and locate mechanical and electrical defects on automotive equipment, heavy equipment, power-driven equipment, and CNG powered equipment.
- Diagnose mechanical and electrical problems and determine corrective procedures.
- Operate ReGen Monterey's maintenance equipment in a safe manner.
- Adhere to the assigned work schedule, adjust working hours to include evenings and/or Saturdays if necessary, and meet ReGen Monterey's attendance standards.
- All ReGen Monterey positions require the employee to provide good customer service to both internal and external customers, maintain positive and effective working relationships with other ReGen Monterey employees, and have regular and reliable attendance and timeliness. Must work cooperatively and respectfully with fellow employees and supervisors at all times.
- Communicate clearly and concisely both orally and in writing.
- Performs other duties as assigned.
